Save your business over \$2,840* a year with a Motorpass card!

Did you know an average small business charging their vehicle expenses to a Motorpass card could save over \$2,840* each year!

Our average small business customer has 4 vehicles, Motorpass offers these businesses a \$710* saving per vehicle each year.

Here's how we help you save:

You could save up to \$41* per tyre!

* This is based on one tyre change per car per year at \$100 each tyre with 41% off the list price at Bridgestone.

You could save up to \$600* per vehicle, per year on book keeping fees!

* This is based on allowing 1 hour per month per vehicle for a book keeper to add up and record vehicle expenses at \$50/hr.

You could save up to \$30* per vehicle, per year on servicing!

* This is based on one service per vehicle per year valued at \$300 with 10% off at Ultra Tune.

You could save up to \$39* a year with up to 44 interest FREE days per card!

* Average card spend per month \$500, with an average of 24.5 days funding. Interest benefit is \$39 per year.

That's \$710* per vehicle and over \$2,840* for an average small business every year!

Don't forget, with Motorpass you can shop across our entire fuel network, that's over 5,800 fuel stations across Australia. Don't be locked into one fuel brand, ensure you have the flexibility to shop around for the cheapest fuel price. Just another way Motorpass saves you time and money!

To check out the latest offers visit motorpass.com.au

* Conditions apply. Calculations are based on the average sized Motorpass customer who holds 4 cards per account. The savings on tyres and servicing are based on data from the relevant partners (Bridgestone and Ultra Tune) and are considered conservative. The book keeping fees are based on figures provided by an independent accounting firm and are in line with small business vehicle usage.
